EDITORIALS....

ARE YOU A GOOD STUDENT?

In the English Course some of the classes are learning how to acquire better study habits. Some of the students aren't working as hard as they should be. Surely all the teachers would appreciate more cooperation in doing assignments. This book, How to be a Better Student, is supposed to help students who have low grades as well as students with high grades. The book was experimented many times, the students who took this course gained 45% in average marks. Students with almost the same ability who did not take this course gained only 7% in average marks. As you can tell, this can be the same for you. Two of the main articles in this book are:

1. Writing down assignments
2. Taking down notes

In order to get the ranks desired, work must be done and planned for. Let's read this book and prove to the teachers that we can be better students and improve our grades.

....Regina Katelnikoff

ART TALENT IS APPRECIATED

To the WRANGELL EAGLE, plenty of art is being presented this year. The October issue carried many pictures that were cut out and arranged by students elected as school paper artists. With the first issue it was probably noticed that many of the regular monthly features took on new appearances. Here again art contributors used periodicals and other means to try coming up with a new look.

The cover for the current issue was designed by Mary Jane Brown from Barrow. The EAGLE extends appreciation to Mary Jane and all other students who make such excellent contributions. It seems as though Mary Jane likes the idea of being an artist. She is on hand everyday, in the paper work area, to exercise her talent

Dear A-V Members,

I received your most welcomed Eagle news today, and I owe each and everyone of you a word of thanks. I really enjoyed reading it, and to see some familiar faces that I knew when I was there last year.

It looks like that all of you put a lot of effort to produce this good looking paper. It really looks neat.

Guess what I looked for first when I opened it? The Typograph. I was curious how many of you would be taking typing.

It really is a good experience to be in the Audio-Visual Club. Sometimes you'll get mad in typing when you can't really make your goal. I'll tell you the truth, I myself use to get mad, but keep trying and you'll make it. I don't think I have anything else to say but say a big hello to the students I knew last year also the rest, and best of all "Keep up the good work you're doing now!"

I will be looking forward to getting another "Wrangell Eagle" next month. Hint! Hint!

Sincerely yours,

Barbara Cleveland

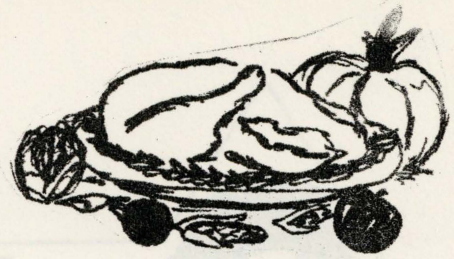

SCHOOL HAS ELECTION!

Wrangell Institute students had a student council election in the gym. First each home room nominated students for candidates. Then they put posters up for the students that they would like to have for president or vice president and so on. Then the people who were running for the different offices went up on the stage and made a speech about what they would do if they were elected. Campaign managers introduced each candidate from their home room.

**May Our Eagle
Soar For Ever
In Peace!!**

ON

The students who won the elections were President, Charles Greene; Vice President, Phil Hoffman; Secretary, Barbara Billy; Treasurer, Gene Kompkoff. The there Council members elected were Richard Koso, Percy Frisby, and Eugene Asicksik. Everyone had fun electing these officers for the student council.

....William Ilutsik

DORM LIFE IS PLEASANT

The life in the dorm is pleasant even though you may have to follow rules. DETAILS are also pleasant even though they may seem hard. DETAILS change every month and you are able to get acquainted with all details in the dorm.

Margret

Roy

On Halloween night we went trick or treat on the campus.

I put my treats in the check out.

Margaret Akatachunak

We had a show in town it was good.

We went trick or treating.

We had a good time.

We are going to go to P.E. today.

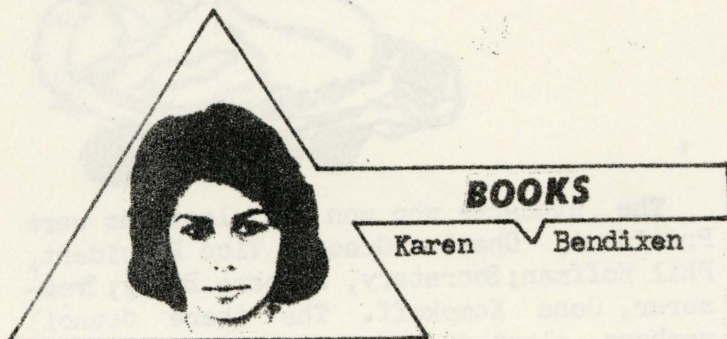

We have some new books and a new chalk board.

We are fixing the bulletin board.

I like to go to the store.

Roy Matsuno

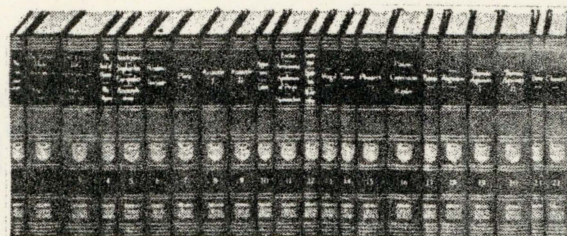

Wrangell Eagle, November 1965

Louisa Alcott, by Jean Brown Wagoner (The Bobbs-Merrill Company): Louisa Alcott was born in Boston on the 29th of November, 1832. Her father was a school teacher, so she started going to school when she was four. She wrote her first story when she was sick in bed with the mumps. Later she wrote plays with her friends & sisters & acted them out in an old barn. Everyone liked them so she started writing more. Then her father went to England, and when he came back he brought teachers with him. Their house was so crowded they had to move out and live on a farm. The teachers soon got tired of living on a farm. The teachers soon got tired of living there and eating plain food, so they left. Later the Alcotts started getting poor and Louisa's father got ill. They moved in with friends and Louisa and her sister Anna started working. Anna sewed and Louisa taught little children. When Louisa's father got better he started working and they moved to Concord. They got a big house with many rooms. Louisa spent much of her time in her room writing plays.

Years went by and Louisa grew up to be pretty and popular, but she always found time to write. She wrote a book called Little Women while she accompanied some rich people to Europe. When she came back there was a lot of people there to meet her.....

To Ride A Fine Horse, by Mary Durack (St. Martin's Durack): The hero of this story of Australian pioneering days began life as a poor boy on an Irish farm. He dreamed and planned how one day he would make a better life for his family. When he was 17 he found himself at last, with his parents, five sisters and younger brother, on board a migrant ship bound for New South Wales.

How his life unfolded from the time is a most exciting story. Fortune favoured him when, in 1851, he made his first 1,000 on the Victorian goldfields, but his SUCCESS was really due to his decision to abandon the goldfields and build up a pastoral empire in a remote wilderness.

Patsy Durack opened up thousands of square miles of then unknown country, and started great herds of cattle and horses on an epic 3,000 mile overland drive.

The man whose childhood ambition had been to ride and own a fine horse became a horse breeder of renown and could take his pick of the best mounts in the land. For all this, Patsy Durack, whose story encompasses a vast panorama of colonial history, and covers the entire map of Australia, never lost the gentle and generous spirit that was the driving force of his life.

Who's Who?

Linda Hadley

This particular girl is very pretty and has a very good personality. She comes from St. Paul Island and is usually seen with W. J. She is about 5 feet 3 inches in height.

WHO DO YOU THINK SHE IS????

The boy in question is about 5 feet tall. He likes to play basketball and is a member of the BSquad.

You usually see him monkeying around and pestering everybody. It is a question as to where he came from.

WHO DO YOU THINK HE IS????

Classrooms

BLIND DATE DANCE TO BE HELD

The Blind Date Dance is going to be held in the gymnasium, Saturday evening at 7:00. The boys will pick the name of a girl that is on a paper. The boy will blind date with the girl during the first half hour. During the second half-hour the girl picks a paper with a boy's name on it. The girl will dance with the boy for half an hour. In the fourth half-hour the girl may dance with anybody. So go to the Blind Date Dance on November 6, and join in on the fun.

....Silas Tegoseak

EYES CHECKED

The eye doctor came on Monday. He checked the school students' eyes. Many of the students are going to get glasses, but many students have good eye sight. The eye doctor let the students pick out the kind of frames they wanted.

....Martha Matthew

BEST DECORATED SECTIONS FOR HALLOWEEN CHOSEN

The best decorated sections for Halloween were sections 14 & 8 in the boys' dorm. They received prize which was a bag of candy for each section. They had to share their candy because there wasn't enough bags to go around so there was only one bag for each section. The following boys are in section 8: Perfenia Pletnikoff, Tim Akers, Norman Jacko, Andrew Silas, Fred Chaney, and Julius Raphael. In section 14 are: Percy Frisby, George Williams, Phil Hoffman, Leland Barger, and Ronald Jimmie.

....Anthony Kochutin

HALLOWEEN DANCE WAS FUN

On Halloween there was a dance and party. Students had lots of fun when they danced. They had many kinds of clothes on. They wore masks too.

The little kids went trick or treating around the campus. Everyone had a good day on Halloween. At the dance they had refreshments, too.

....Sophie Asetekluk

Saturday, October 30th, there was a Halloween dance in the gym. To attend this Halloween dance students had to use costumes. Since they were going to have a haircut, haircuts are the usual thing they have to have before attending and dance.

Everyone had a fine time. Most of the teachers attended the Halloween dance too. They had a nice time. The dances the students did were the twist, jerk, and slow dance. Since costumes were used there were more dancers.

The costumes the students used were very interesting. Boys were wearing girls' dresses. Some were ghosts, and the best costumes I saw were the two mummies. After the dance was over everyone had refreshments happily. It was then time to go back to the dorm and get ready for bed.

....Kenneth Lisbourne

BOYS ARE GOOD HOUSEKEEPERS

The month of October has rolled past and the end of the month scores have been totaled for each section in the dorms. Sections five and eleven were the sections having the highest scores. The boys in section eleven are Walter Jack, Richard Koso, Andrew Romondos, Mickey Eleshansky, James Nicholi, & Silas Tegoseak. The boys in section five are Glenn Cook, Anthony Kochutin, Eugene Asicksik, Gene Kompkoff, Paul Passamika, Brian Burgess, Leonard Adams, and Arthur Condardy. The boys did a pretty good job in keeping their sections clean. They did a much better job this month and will surely do better next month.

....Gene Kompkoff

MOVIES SEEN FREQUENTLY

Students have movies frequently in all the classrooms. Today there was one in Mr. Nutter's room. Yesterday the group had one in Mrs. Hinde's room. All the movies in Mrs. Hinde's room are very interesting because there is much about other countries and the ways of the people.

....Ronnie Sam

FOOTBALL IS FUN

Last month, October 29th, Mr. Fisher gave out trophies. Everyone had fun playing football every night.

Students had to throw and kick to play against the others. Each team tried to win every night.

The trophies were appreciated by each boy that received one.

Rueben Rock

CHEER-LEADING TRY OUTS

There are some girls that are going to try out for cheer leading. On Tuesday, November 2nd, some girls will meet in the school gym. They will try out there. The teachers are going to be there to pick out the girls that they think will be good cheer leaders. The girls that are picked will try out again in the gym, and the students will choose the girls to be the cheer leaders for the rest of the year. Those that make the cheer leading squad will have to have good grades. There will be A Squad and B Squad cheer leaders, and four on each squad. The girls that make it will try do their best throughout the school year.

Vicky James

NEWSPAPER RECEIVED FROM HOME

Just a few days ago one of the girls received a newspaper from home. The girl was Nancy Hess and she shared it with the other girls in the dorm. It was very nice to read about the news and events of what is going on back home.

Maybe more newspapers will be sent in the future for everyone enjoys reading about the hometown news.

Jennie Aukon

PLANTS ARE INTERESTING

The students in Mr. White's science class are learning many new things about plants. So far, they have studied about plants, the storage of food, the plant kingdom, and about the germination of a bean. All of this is new to the class and is very interesting.

Regina Katelnikoff

BASKETBALL TEAMS ORGANIZED

Wrangell Institute basketball teams have started practicing the last two weeks and have been doing a lot of running.

The following boys are on the A Squad team, Walter Jack, Richard Scott, Percy Frisby, Matthew Kookesh, Byron George, Brian Burgess, Daniel Douglas, Ronald Pletnikoff, Charles Lockwood, Charles Greene, Richard Hensly, and Glenn Cook.

The B Squad has the following boys on it: Leland Barger, John Barger, Dennis Adams, Perfenia Pletnikoff, Eugene Asicksik, Gene Kompkoff, Phil Hoffman, Lee Titus, Robert Walker, Lyle Walker, Anthony Melovedov.

The boys hope to win a lot of games for their school this year.

Daniel Douglas

This year there are about 24 boys on the basketball team. There are twelve boys on A Squad and twelve on B Squad. After school the A Squad always practice from four until five o'clock, and the B Squad always practice from eight until nine o'clock. They practice everyday. Mr. Fisher coaches the A Squad and Mr. Merrit coaches the B Squad.

After they are finished practicing, they are always tired. Archie Juneby is the manager. He helps Mr. Fisher. Archie takes care of the boys shirts and the basketballs. Sometimes Archie tells the boys what to do. He also helped Mr. Fisher with the track boys. In basketball sometimes the boys have to run around the campus about five or six times. They also exercise by doing sit ups and push ups. The basketball boys will be playing their first game soon.

The students hope that the A and B teams do their very best in trying to win games.

Charles Paul

PRIMARY II CHATS

Thomas Willis from our room went to Mt. Edgecumbe Friday.

I went to Mrs. Graves house this week end.

Evelyn Nick

On Halloween we went trick or treating, It was raining but we had fun.

Mary Willis

I like to read good books.

We go to the Library on Tuesday.

Shirley Willis

We have T. V. in our dorm.
Many good things come on T.V.
I like to watch T.V.

Darlene Kobuk

Town is a good place.
We went to town Saturday on the school bus.
We had lots of fun.

Winifred Penetac

We go to P.E. every Thursday.
I like P.E. we are learning to practice
cheer leading.

Debra Condardy

MASCARADE FOR CHILDREN

The children of Wrangell Institute had the privilege of going around trick or treating on the campus. They went to the teachers homes and through some of the houses on the campus. Mrs. Graves took the children. All of them were dressed up in costumes.

They had on just any old clothes that were around the dorm. Some of the children had very funny faces.

....Evangeline James

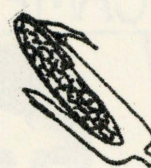

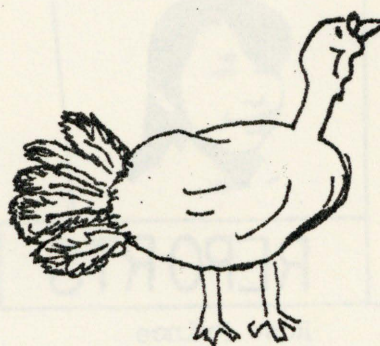

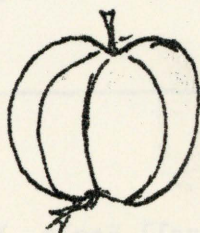

CHORUS PARTY WAS EXCITING

Last Friday which was October the 29th, the students in the chorus had a party in the music room. They all wore costumes. Mr. Nutter & Mr. Hillyer did a little skit behind a curtain which was very spooky. Before the trick weirdnoises and sounds were heard that were enough to make your skin crawl.

At about 8:00 members bobbed for apples in a "dinky" tub. Everybody had a hard time getting the apples. After bobbing for apples everyone drank kool-aid and ate doughnuts.

Alfred Goozmer won a prize for the best costume. He was dressed as a Hindu.

MAN'S FLIGHT

Located near beautiful Colorado Springs, Colorado, is the United States Air Force Academy. This is a college for men, where they are taught engineering. After four years these men graduate as officers in our U.S. Air Force.

At the Air Force Academy is a statue of an eagle with its wings spread as though flying. At the bottom of the statue are the words, "Man's Flight through Life, is Sustained by the Power of His Knowledge."

All of us have a life to live and we should live it the best way possible. Our living of life, or flight through life, is assisted by what we have learned and what we know. The more we know or the more powerful our knowledge, the better we will get along in life and the further we will go.

The power of knowledge begins at school. In order to increase our power, we need to learn more and more. To learn, we must attend all of the school we can and get as much out of it as possible.

School is the key to knowledge. Knowledge is the key to life.

M. L. Heflebower
Department Head, Guidance

AMERICAN EDUCATION WEEK

NOVEMBER 7-13

BASKETBALL PRACTICE STARTED

Basketball practice started on October 19th. That was the first practice of the year. Teams were not organized as yet. But now they are. There are 12 boys on the A team and 12 on the B team.

They are doing dribbling on offense and defense. They are shooting free-throws, and going through with some of the plays. The last thing done is laps. That is done to be in shape for the games coming.

DRILLS IN P. E. CLASSES

In P. E. students are having some drills. It is sort of like a test. Mr. Fisher, who also is the coach, is giving it to everyone. Students have to see how long it will take to do this test. The fastest was 28 seconds, which was by Carl Okbaak.
